Narratives for a good life

- a common exchange on topics that move the world

The community house, in Amazonia 'Maloka', is a place of exchange and understanding - also between different peoples. People dance together and sing the songs of different peoples, like in the "Kölner Karneval", to remember and to face the times to come.

This is the invitation to an evening in "our common house", where stories are shared on topics that are always and for all people of importance. This is what our guests from South America and we would like to share with you.

Venue: Forum in the community center Alte Feuerwache, Melchiorstraße 3 | 50670 Cologne.

While our event will be held in German as the lingua franca, we would like to offer translation into two other languages. Your registration by 02/12/2023 at anmeldung@infoe.de is helpful to prepare the translation and catering, thank you.
